Fred Bloetscher, President of PUMPS, gave a PowerPoint presentation, which is attached to and incorporated into these minutes.

Commissioner James said she noticed through different parts of the City that the speed humps are not consistent. She asked who chooses which speed humps get the bollards, and if there are additional costs associated with the bollards.

Mr. Bloetscher responded there are gross inconsistencies with the speed humps. He addressed the bollards, noting they cost approximately \$100.00 each and they could be included in the bid specifications.

Vice-Mayor Odman questioned whether there are locations where the bollards could not be used.

Mr. Bloetscher said he would look into it, as there are some streets that are quite narrow; perhaps the bollards could be located in the grass.

City Attorney Ansbro noted this announcement is for tonight's Final Budget Hearing for the City of Dania Beach, Florida for Fiscal Year 2020-2021.

City Attorney Ansbro read the title of Resolution #2020-110.

Commissioner James said the Commission approved \$75,000, but this item includes a \$79,000 figure. Also, SE 5th was included in the cost estimate, and she asked why the Commission was not consulted about the addition of this particular street or changes to the budget.

City Manager Garcia explained the only area she was discussing that was in addition to the quote was an area east of I-95, between Griffin Road and Federal Highway. The budget was cut from \$100,000 to \$75,000, and they are seeking the additional \$4,000.

Commissioner James referenced the memo, and questioned how SE 5th Avenue got there and who decided it would be included as it was not approved by the Commission.

Fernando Rodriguez, Director of Public Services, explained Southeast 5th Avenue was indirectly in the memo due to the lights approaching the beach on Dania Beach Boulevard. Mention of it in the memo was likely a scrivener's error, and he explained the plan for the parks lighting. Southeast 5th Avenue is not in the plans; it is just an area of location to light up along Dania Beach Boulevard going east.

Commissioner James would like to keep the amount at \$75,000 because the Commission did not approve more. It is concerning additional funds from the Commission contingency are being taken for something the Commission did not approve.

City Manager Garcia explained the area from I-95 to Federal Highway was not originally included. If the Commission is not okay with the additional \$4,000, we can remove decorations from the parks and the pier.

Commissioner James asked which parks would be decorated.

City Manager Garcia responded Frost, CW Thomas and PJ Meli parks, and the arch on the pier.

Vice-Mayor Odman asked how far down Griffin Road it is going.

Public Services Director Rodriguez responded from I-95 to Federal Highway and the opposite direction to State Road 7.

Vice-Mayor Odman agreed if anything comes out of Commission contingency, the Commission should know, but she does not have a problem with the extra \$4,000 and supports this item.

Commissioner Brandimarte said the lights being discussed would light up the Casino, which is bright already. Additionally, there are no homes on the north side of Dania Beach Boulevard. It is a waste of time going past the Casino with lighting since there is a bright sign at the Casino.

Mayor Lewellen commented the intent for these lights would be for drivers going to the beach or pier, and she supports the item.

Commissioner James motioned to adopt Resolution #2020-110; seconded by Vice-Mayor Odman. The motion carried unanimously.
